

DEMENTIA FRIENDLY CORPUS CHRISTI VIRTUAL SUMMIT

EVERY PART OF THE COMMUNITY PLAYS A ROLE

Everyone forgets things at times. There's a difference, however, between normal changes in memory and memory loss associated with Alzheimer's disease or other dementias. The Dementia Friendly Corpus Christi Virtual Summit is an opportunity to hear from experts and advocates from our own community!

KAREN CREEKMORE

More than 58 million people worldwide are currently living with dementia. Over 400,000 of them are Texans. Alzheimer's disease is the most common form of dementia, the 6th leading cause of death in the United States. Together, we can make a difference.

Dementia Friendly Corpus Christi's mission is to engage with community partners to educate and empower different sectors of our community with information needed to enhance the dignity of persons living with dementia, to reduce its stigma and social isolation. The conversation begins November 12. Join us.

NOVEMBER 12, 2020 1 PM - 4 PM
